MANUFACTURING COMPANY

Providing USA Quality Made Tables Since 1953

## 110 Series

### Product Details

The 110 Series Table is fully assembled, adjustable height folding table designed to allow unobstructed movement around the table. Customize your table by selecting either HPL or TFL laminate. For HPL, core options are ¾" particleboard or ¾" plywood; HPL top underside sealed with moisture resistant backer. TFL top has thermally fused laminate (TFL) on both sides top and bottom. Both HPL and TFL tops finish with T-mold or 3mm protective edging. The top is supported with a strong, rigid 2 ¼" 18 gauge roll formed edge steel apron. The adjustable pedestal leg design is arched with wide support base to distribute table weight evenly. Adjustability has two ranges, standard 23-30"h or 29-36"h, that adjust in 1" increments. Each leg consists of 1 ¼" rd 16 gauge and 18 gauge steel and two compression locks securing open position. Adjustable levelers ensure proper positioning and alignment on uneven floors. Barricks stocks 30 HPL and 16 TFL options to create your customized design.

### Sizes Available

|       |       |       |       |
|-------|-------|-------|-------|
