## Children's Cafeteria

### Product Details

Barricks' Children's Cafeteria is a durable, functional solution for eating or group project work. Its design is reduced in scale for children. Cafeteria top is 23" h with bench height at 14 1/2" h making easily accessible for children. The options for the cafeteria table are 3/4" particleboard core or 3/4" plywood core both high pressure laminate (HPL) top surface and moisture resistant backer bottom surface finished with a protective t-mold edge. Or, select thermally fused laminate (TFL) on both sides- top and bottom finished with T-mold protective edge. The top and bench is supported with a strong, rigid 2 1/4" 18 gauge roll formed edge steel apron. Cafeteria base is 1 1/4" sq 18 gauge steel that supports and connects top and bench. Eight cantilevered braces provide additional support for tops and benches. Adjustable levelers ensure proper positioning and alignment on uneven floors. Barricks stocks 30 HPL and 16 TFL options to create your customized design.
